AN OASIS BETWEEN SCHOOL AND HOME

Since 2006, NASCANS has been the trusted partner for schools and parents in providing a conducive and safe environment for thousands of children with professional after-school care.

The structured timetable and array of specially curated programmes and activities allow children to develop healthy and positive thinking habits and grow into mindful individuals with strength of character.

With 30 centres around Singapore, NASCANS is the leading after-school student care brand where learning flourishes, character is built, positive habits are nurtured and friendships are forged.

SINGAPORE'S STUDENT CARE

PROGRAMMES

SCHOOL-BASED CENTRES

Located in our various Ministry of Education (MOE) partner schools islandwide, our school-based student care centres help children develop positive thinking habits, leadership skills and strength of character through carefully curated activities.

The programme is aligned closely with the school values, activities and overall direction of each partner school, thereby providing a complementary experience and seamless transition. Students benefit from a comprehensive and holistic student development framework which achieves holistic learning outcomes through the 4 pillars of Homework Supervision, Character Education, Enrichment, and Outdoor Activities.

Homework Supervision

Our experienced mentors guide students to complete their daily homework assignments and conduct revision of spelling for English and Mandarin before the end of the school day.

Character Education

Character Education is cultivated in students through our in-house programmes like Nurturing Character™, Habits in Action™ and Character Values in Action™ alongside special projects with external community organizations.

Enrichment

We have a myriad of enrichment offerings that provide students with a range of proprietary holistic development experiences related to areas such as Reading, Creative Writing, Music and Art.

Outdoor Activities

Students spend at least 2 hours each week outdoors, engaging in fun team-based sports, games and other activities, achieving a healthy balance of work and play!

PROGRAMMES

COMMUNITY-BASED CENTRES

We use the latest technologies and approaches to help students discover their strengths, improve their academic performance, and develop positive character habits.

Homework and subject revision, small group tutorials by former MOE teachers, study skills through Multiple Intelligences, and customized learning technologies for grade improvements, are a few hallmark features of our centres.

OUR PROGRAMMES & SERVICES

Small Group Tutorials

Learning Technologies for Grade Improvements

Study Skills through Multiple Intelligences

Former MOE teachers

Cultivating Good Habits

Nutritious Meals & Snacks

Learning to Learn

We teach learning skills such as Mind Mapping and Memory Techniques.

Building Character

We build strength of character and instill positive values through our in-house Nurturing Character™ programme.

+ PROVIDING INSPIRATION BUILDING CONFIDENCE

Making Friendships

We believe in team work and team bonding as a way to develop harmony and strong ties.

Developing Discipline

We help students develop discipline by setting and meeting their goals of homework completion and other planned activities.

Cultivating Positive Habits

We cultivate positive habits and help students apply knowledge to real world issues through our Habits In Action™ programme.

Knowing Their Multiple Intelligences

We help students discover their multiple talents and strengths through the Multiple Intelligences Developmental Assessment Scales.

AN OASIS BETWEEN SCHOOL AND HOME

UNLOCKING BRILLIANCE IN EVERY CHILD

Every child has the potential to excel and succeed. At NASCANS, we nurture each child academically, build their character, develop their interpersonal skills and instill life values.

“

Both of my kids attended NASCANS at Northland Primary School. In addition to a safe environment, their mentors coached them in their homework and spelling, including Chinese. There were always fun or sports activities after homework. I had peace of mind as my kids were well taken care of, allowing me to focus on my work during the day. As their homework were completed during the day, both my kids and I could spend quality time together at night chatting, reading or playing board games.

The caring mentors also looked out for the kids' emotional needs and I like that there was always open communication between the mentors and me. To us, NASCANS is like a second home.

What our happy parents think about us

“

BUKIT MERAH STUDENT CARE CENTRE

Mrs Yip

NASCANS' structured timetable is commendable as it aligns itself with the students' school work.

I really appreciate the mentors helping my children with their school homework and weekly spelling exercises. I do not have to worry about their school homework not being completed when they come home in the evening. Their school holiday programmes have always been very impressive. The effort to tailor the activities is great especially the weekly outings during the holidays, the special arts and craft classes and fun science activities.

I hope you will continue to keep up with the good work as our children have grown well with your centre and as parents, we will be able to do our daily work without worry.

“

BUKIT MERAH STUDENT CARE CENTRE

*Mummy of Brian Choo,
Primary 3*

As a parent, I have always found the lines of communication between the teachers and myself open at all times. The children feel valued and happy in the centre and the teachers understand parents' expectation in terms of academics. Each day we hear stories from our children about the fun adventures & learning that they experienced. The children participate in programmes and activities that encourage them to engage, question and analyse the world around them, enriching their lives and nurturing a love for learning.
